PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience in Java, Python, backend engineering, and computer vision. Proficient in designing RESTful APIs, managing SQL database schemas and migrations, and deploying containerized applications with Docker. Committed to building scalable, maintainable solutions and eager to contribute in a collaborative software engineering team.

EDUCATION

Bachelor of Technology in Computer Science

Nov 2022 – Apr 2026

Government Engineering College, Bidar - Karnataka | CGPA: 8.55 / 10.0

TECHNICAL SKILLS

Programming Languages: Java, Python, C

Web Technologies: HTML5, CSS3, JavaScript

Databases: MySQL, SQL Schema Design, Database Migrations

DevOps & Cloud: Docker, Jenkins, Microsoft Azure, Git, GitHub

Development Tools: VS Code, Eclipse, Linux

EXPERIENCE

Full Stack Java Developer Intern — Edufu Technologies Pvt. Ltd. (CampusPe)

Feb 2026 – May 2026

- Developed Java backend services and RESTful APIs for the Compliance Calendar & Tracker application, used to schedule, track, and manage regulatory compliance deadlines with automated email notifications.
- Designed the SQL schema, executed zero-downtime database migrations, and containerized the full application stack with Docker for measurable performance gains.

PROJECTS

Enterprise E-Commerce Backend (Microservices)

2026 (In Progress)

Backend Developer | Spring Boot, Spring Cloud, PostgreSQL, Redis, Docker

- Designing a microservices architecture with independent services for Product Catalog, Order Processing, Inventory Management, and User Authentication, orchestrated via Spring Cloud Gateway and Discovery.
- Implementing asynchronous order processing to update inventory and trigger confirmation emails without blocking the main request thread.

Compliance Calendar & Tracker

2026

Java Backend Developer | Java, MySQL, Docker, REST APIs

- Built as part of internship work — a Java backend application to schedule, track, and manage regulatory compliance deadlines with automated email notifications.
- Implemented a normalized SQL schema, zero-downtime migrations, and Docker containerization, optimizing query performance for the dashboard.

PG Nest — Student PG Finder Web Application

2025

Full Stack Developer | Java, MySQL, HTML5, CSS3, JavaScript

- Engineered a full-stack web platform enabling students to search, filter, and book PG accommodations in real time, significantly reducing discovery time.
- Built RESTful APIs and a normalized MySQL schema for listings, profiles, and bookings, with secure authentication and session management.

CERTIFICATIONS & ACHIEVEMENTS

- Endpoint Security — Cisco Networking Academy (May 2024)
- Introduction to Cybersecurity — Cisco Networking Academy (Nov 2024)
- Winner, KIMO Intra-College Technical Exam — Govt. Engineering College, Bidar (Sep 2024)
- 9th Rank, KIMO Intra-College Tech Competition — Govt. Engineering College, Bidar (Sep 2024)
